Create a Microsoft Teams link for my Starfish Locations

Step	Directions
The following steps walk you through how to create a Microsoft Teams link, which will be used to replace your Personal Zoom Room Link.	
1	In the Microsoft Teams **app**, click on the calendar icon  on the left-hand side
2	Click 
3	Add a **meeting title**
4	Schedule this meeting for early morning on a weekend, to avoid interruption of actual student appointments
Helpful Hints: • Ensure “Teams meeting” is toggled on • If you need to include a backup advisor to be able to access the meeting, you can add them as **optional** attendees • You only need to make this meet reoccurring if you allow students to call in to the video using the Microsoft- generated phone number	
5	Click **Save** in the top left corner
Due to the length of Microsoft Teams meeting links, you’ll need to create a GoLink to fit within the allotted space in Starfish. The following steps walk you through how to obtain the meeting link and create a GoLink to use for your virtual Starfish location.	
6	In the Microsoft Teams desktop app, double click on the meeting you just created, click the down arrow on the "Join" button and click "copy join link"
7	Navigate to go.uncg.edu in a browser window and click **Make a GoLink**
8	Update the **Link Type** to “**Specify my own link text**”
