Instructor Survey: At the end of every Fall & Spring semester, the Students First Office asks course instructors to provide feedback about Starfish. The Spring 2021 Instructor Survey will be available to all undergraduate course instructors April 26 through May 7. Email invites are forthcoming.

Advisor Survey: At the end of every Spring semester, we ask academic advisors for feedback about Starfish and how it contributes to advising practices. The Spring 2021 Advisor Survey will be emailed to all undergraduate advisors April 26 through May 7. Email invites are forthcoming.

Academic Status Report
On April 6, the Starfish 12-Week Academic Status Report (ASR) will be sent. Your feedback will help academic advisors and student support staff guide students in planning for their final grades, completing any necessary academic/financial aid appeals, opting into the academic relief package and adjusting their course schedule for the fall term.

To learn more about the ASR, take a look at our quick guide.

Starfish & Summer Session

Starfish will remain available for use during Summer Session 2021!

- Undergraduate course instructors will be able to share feedback with students and their support network staff.
- Instructors and staff can issue student referrals to various campus resources.
- Instructors, staff, & students can use Starfish for appointment scheduling and meeting management.

Note: Instructors and staff who will be away from campus during this time should remove all calendar availability prior to leaving. Check out our Starfish website for more information on these features!

Clearing Spring 2021 Feedback

Every academic term, students begin with zero flags, kudos, and referrals. The Starfish administrator is responsible for clearing out feedback items from the prior semester. Spring 2021 feedback items will be cleared on May 7 to allow students to enter the Summer term with a fresh start.

Cleared Spring items will remain available for historical viewing until the Fall term begins.

Staff and instructors are encouraged to explore UNCG’s Starfish website for additional information about Starfish and available training guides.
